Please join us for a night to remember at our third annual Red Tie Gala in the Grand Ballroom of The Warwick Melrose Hotel in Dallas, Texas.

Our Roaring 20's theme, red carpet experience, signature cocktails, fine-dining stations, and top-notch entertainment guarantee a wonderful evening!

Proceeds from this evening will benefit Cancer Support Community North Texas (CSCNT) and will make a meaningful impact for this worthy cause...
all while having fun!

Navigating life with a cancer diagnosis is one of the most challenging experiences a person can have. But there is HOPE. We believe that community is stronger than cancer, and we hope that you feel the same way! The essential funds raised at our gala allow us to provide services like individual counseling, support groups, healthy lifestyle workshops, fantastic informational presentations, fun social events, and so much more, *free of charge*, for cancer patients and those supporting them in our local community.

At Cancer Support Community North Texas (CSCNT), cancer patients and their families learn to live with, and even thrive when cancer is in their life. Being able to do this in a community surrounded by others who understand your challenges, celebrate your victories with you, and stand beside you when you need it most – is truly priceless!

We have big goals for our Red Tie Gala this year. We aim to raise at least \$300,000 and would love (and need) your help in doing this! These funds will ensure that we continue to provide our excellent current services and also expand support for kids and teens, serve oncology care professional, and reach out to the veteran community.

Please sponsor our 2023 Red Tie Gala! If you would like to learn more please email info@cancersupporttexas.org.

On behalf of the members and families we serve, CSCNT thanks you for your support.

Cancer Support Community North Texas (CSCNT) provides FREE social and emotional support to ANYONE touched with a cancer diagnosis so that no one faces cancer alone. We believe Community is Stronger than Cancer.
